Default Methods

Prerequisites

This seminar was developed for software developers with extensive experience in Java programming. The participants should be already familiar with the basic use of interfaces.

Duration

This seminar includes 2 academic hours.

Premium Training

This seminar can be delivered either in Hebrew or in English. It can be delivered either online, or in a Hybrid way that allows the participants to choose whether to attend the meeting room where the training takes place or to join online.

The Lecturer

This seminar is delivered by Haim Michael, an experienced well-known software development trainer with more than 25 years of experience in software development training, more than 25 years of experience in Java programming.

The Topics

This seminar introduces the possibilities we have when we choose to define an interface with default methods. This seminar covers the following topics:

Introduction to Default Methods

Using Interfaces as Traits

Private Methods in Interface

Practical Cases for Using Default Methods
